Subject: RE: Leviathan Mine Superfund Site Meeting at R9 SF & Lean

Ron,

We continue to move forward with the Leviathan Lean process. I know that you recently inquired with Dana Barton about the Lean status/progress. We have been coordinating and meeting with other Leviathan Lean team members to introduce and discuss the draft project charter. We met with the Lahontan Regional Water Quality Control Board on October 4. We have a meeting scheduled with the Washoe Tribe next week, November 8. We will plan to discuss the Leviathan Lean project during the December 1 meeting.

Thanks for following up on this!

Julie

Hi Julie. Look forward to seeing you on December 1st. Do you know if the LEAN process will be moving forward during November, or is the thought that we are waiting for this meeting before progressing LEAN? Thanks.

December 1 it is. I am happy that we found a date that will work for everyone. Let's plan to begin our meeting at 10:30 AM at the EPA Region 9 office in San Francisco.

Tony and I can work together to develop an agenda for the meeting.

Thanks again,

Julie

I am checking into potential December dates. Some preliminary options may be:

- December 1
- December 13
- December 18-21

I haven't confirmed that the above dates will work for everyone here, but wanted to continue the search for a workable meeting date. Will any of the December dates listed work for you? If so, do you have preferences?

Thanks,

Julie

Hi Julie, next month the following dates work to meet at your office in San Francisco. If none of these dates work - please suggest a few days in December that work for you.

- Nov 14 (Tuesday)
- Nov 29 (Wednesday)
- Nov 30 (Thursday)

As discussed, the meeting is an opportunity for Brian Johnson and myself to introduce ourselves. We can also discuss progress on the RI FS. Ron Halsey (Dana knows Ron) and Marc Lombardi (Woodplc – formally AMECFW) will also be attending. Best if we could start the meeting mid-morning and block out an hour and ½ or so.

Hope this helps... Tony...
